

Here is the infamous "A to Z Name Descriptors."

A list of positive, energizing words I like to use when I am learning the names of attendees. Please see 2nd sheet.

My Process:

1. List first names alpha.
2. Based on first letter of name, match it up with fun word, starting with same letter.
3. After greeting each attendee, I explain I use alterations to help me remember names. I ask if it is okay if I remember them by.. e.g. Perfect Patty.

(99.99% of the time participants get a kick out of it. Those attendees who hear your combinations love to chime in about the new nickname you gave the person. Again, creates a fun learning environment ... and helps you learn their names!)
